What is EDUEVAL?

EDUEVAL is a project of LLP program born with the main objective to improve knowledge and awareness in the adult education system, looking at the evaluation as a critical part of the system.

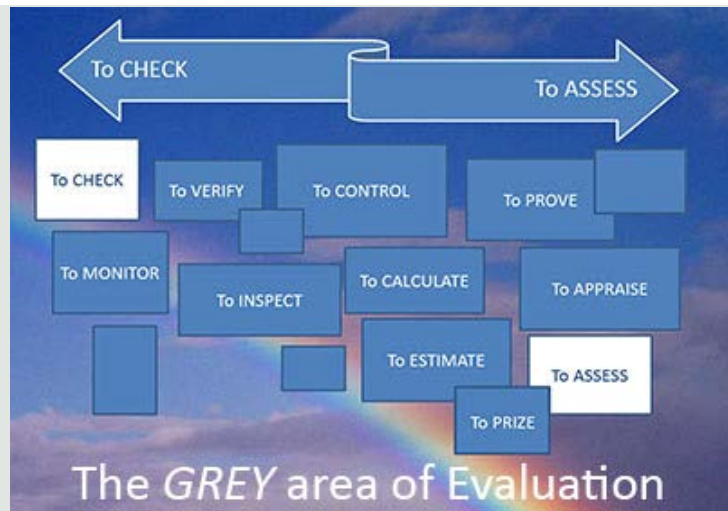

EDUEVAL aims at redefining the professional profile of the evaluator of adult education staff at a European level, in order to guarantee the quality of the adult education.

Scopes of the project:

- Contribute to the development of quality lifelong learning, promote high performance, innovation and create a European dimension within adult education systems and practices.

Output:

- a **mobility workshop** that will be the occasion to share theories and practices about the evaluation of adult education staff, including practitioners and researchers, in order to build up collaborative knowledge.
- a **Handbook** that will summarize the theoretical background and its practical implications in providing evaluation methods for adult education staff.
- a **curriculum** for the initial training of the professionals involved in the evaluation of adult education staff, in order to promote the wellbeing, quality and productivity of those who work in the adult education field, preventing and dealing with their risk of burn-out and occupational diseases.
